# Care Management

Our experienced Care Managers specialize in assisting aging adults & their families with care arrangements, providing support in a number of ways:

- Facilitate clear communication with all involved.
- Offer dementia education and resources.
- Attend to family caregivers' needs.
- Act as the “eyes and ears” for the family and report any changes in condition.
- Offer counseling, mediation, and support to work through resistance.
- Create an appropriate Plan of Care.
- Match the Client with the right Arosa Caregiver.
- Oversee in-home care.

## When placement is the desired option.

Our Care Managers can support families through the transition, helping select the appropriate living community and arranging logistical support for the move.

## In-home Care

Receiving care at home can provide a sense of comfort, safety, & independence for an adult with dementia. Arosa home care services include:

- Bathing
- Dressing
- Grooming
- Toileting
- Medication reminders
- Meal preparation
- Ambulation
- Light housekeeping
- Transportation
- Errands
